

SOLID WASTE SORTING CHART

LEGEND: Gray boxes indicate proper trash segregation for legal disposal.

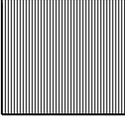

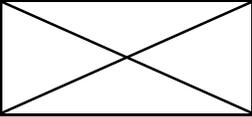

Solid Waste Item	Plastics Only Container	Metal & Glass Only Container	Food / Paper Container	Other	Comments
Aerosol Cans				Turn in to HazMinCen	
Aluminum Foil					
Batteries				Turn in to HazMinCen	
Bones					
Cable (nonplastic coated)		Small Quantities		Large Quantities: Store & Retrograde	Plastic coated non-electrical cables process the same as electrical cables
Candy Wrappers					
Cardboard (including waxed or Tri-walled)					Place plastic tape into plastics only container
Cigarette Butts					
Computer Disks and CDs	Unclassified				
Durable Items (nonplastic)				Store & Retrograde. If disposal is required, discharge unprocessed beyond 25nm and outside special areas	Examples: I-Beams, large plate, metal trash cans
Durable items (with some plastic)				Store & Retrograde	
Electrical Cable & Wire	Small Quantities			Heavy & Large Quantities: Store & Retrograde	
Feminine Hygiene Products				Incinerate or Store & Retrograde	
Foam Mattresses				Store & Retrograde	
Food (loose)					
Food Containers (metal)					
Glass (jars/bottles)					
HazMat Containers				Turn in to HazMinCen	Some HazMat containers can be disposed of with metal/plastic trash

Solid Waste Item	Plastics Only Container	Metal & Glass Only Container	Food / Paper Container	Other	Comments
					per OPNAV-P45-114-95
Light Bulb (incandescent)					
Light Bulbs (fluorescent)				Turn in to HazMinCen	Contains Mercury and other Hazardous Material
Light Sticks				Turn in to HazMinCen	
Linoleum Tile	Small Quantities			Large Quantities: Store & Retrograde	
Magazines					
Medical Waste (infectious and noninfectious)				Handled by Medical Office	
Metal (structural and large metal items)				Discharge Directly Overboard	
Milk Bladders					Empty contents before processing
Music Tapes & CDs					
Non-plastic Hardware (nuts, bolts, etc)				Discharge Directly Overboard	
Oily Rags, Paint Rags				Turn in to HazMinCen	
Paper (Classified, Computer, Newspaper and loose)					
Pens & Pencils					
Plastic Bottles					Remove excess food contamination
Plastic Film and Wrap					Remove excess food contamination
Shower Shoes & Curtains					
Soda Cans		If no recycling available		If Recycling available: Compact, Store & Recycle	
Steel & Aluminum					
Styrofoam					
Telephones, Electronics, etc.					
Textiles				Incinerate or Store & Retrograde	Including non-oily rags

Solid Waste Item	Plastics Only Container	Metal & Glass Only Container	Food / Paper Container	Other	Comments
Uniforms (clothing & shoes)				Store & Retrograde	
Urine Bags (pilot)				Incinerate or Store & Retrograde	
Utensils (plastic)					
Vegetable Oil				Store & Retrograde or strain and place in waste oil tank	
Video Tapes					
Wet-strength Paper Bags					
Wood (crates and boxes)				Incinerate or Store & Retrograde	
Wood (excess)				Incinerate or Store & Retrograde	Including from pallets

SOLID WASTE PROCESSING CHART

LEGEND

		Suggested Way to Process		Alternate Way to Process		Do Not Process This Way
--	---	--------------------------	---	--------------------------	--	-------------------------

Solid Waste Item	Plastics Processor (PWP)	Metal/Glass Shredder	Pulper	Incinerator (if available on ship)	Other	Comments
Aerosol Cans					Turn in to HazMinCen	
Aluminum Foil		Suggested				
Batteries					Turn in to HazMinCen	
Bones		Alternate	Suggested			Feed into pulper slowly. Mix with other pulpable items.
Butane Lighters					Turn in to HazMinCen	
Cable & Wire (nonplastic coated)		Small Quantities			Large Quantities: Store & Retrograde	Plastic coated non-electrical cables: Process the same as electrical cables.
Candy Wrappers	Suggested					
Cardboard			Suggested	Alternate		Remove plastic tape and process with plastics.
Cardboard, (waxed or Tri-walls)			Suggested	Alternate		Feed into pulper slowly. Mix with other pulpable items.
CDs & Computer Disks	Unclassified					
Cigarette Butts				Alternate		
Classified Paper Documents			Pulpable only, no plastics	Alternate		

Solid Waste Item	Plastics Processor (PWP)	Metal/Glass Shredder	Pulper	Incinerator (if available on ship)	Other	Comments
Computer Paper						
Empty HazMat Containers	Items containing plastic (i.e., plastic handled paint brush, plastic drop cloth)	Metal or glass items (i.e., metal paint can)	Paper items (i.e., paper drop cloth)			Must be listed in OPNAV P-45-114-95 to process. Otherwise, Store & Retrograde Paint must be dry before processing.
Durable Items (nonplastic)					Store & Retrograde. If disposal is required discharge unprocessed beyond 25 nm and outside special areas	Examples: I-beam, large plate, metal trash cans.
Durable Items (with some plastic)					Store & Retrograde	
Electrical Cable and Wire	Small Quantities				Heavy and Large Quantities: Store & Retrograde	
Feminine Hygiene Products					Store & Retrograde	
Foam Mattresses					Store & Retrograde	
Food (loose)						
Food (foreign)						
Food Containers (metal)						
Glass (jars / bottles)						
Light Bulb (incandescent)						
Light Bulb (florescent)					Turn in to HazMinCen & retain for shore disposal	Contains Mercury and other Hazardous Material

Solid Waste Item	Plastics Processor (PWP)	Metal/Glass Shredder	Pulper	Incinerator (if available on ship)	Other	Comments
Light Sticks					Turn in to HazMinCen	
Linoleum Tile	Small Quantities				Large Quantities: Store & Retrograde	
Magazines						
Newspapers						
Paper (loose)						
Medical Waste (infectious and noninfectious)				Paper (sterilized)	Handled by Medical Office	
Metal (structural and large metal items)					Discharge Overboard	Retain for shore disposal, if possible.
Milk Bladders						Empty contents before processing
Music Tapes & CDs						
Hardware, nonplastic (nuts, bolts, etc.)					Discharge Directly Overboard	
Pencils	Mechanical Pencils		Wooden Pencils			
Pens						
Plastic Bottles						Remove excess food contamination
Plastic Film and Wrap						Remove excess food contamination
Pulper Junk Box Residue						
Shower Shoes & Curtains						
Soda Cans					Compact, Store & Recycle	
Styrofoam®

Video Tapes		X	X	X	X	
Wet-Strength Paper Bags	X	X			X	
Wood (crates and boxes)	X	X	X		Store & Retrograde	
Wood (excess)	X	X	X		Store & Retrograde	Including pallets

General comments:

- If it looks or feels like plastic or rubber- it cannot go in the ocean- BY LAW
- Processed Metal/Glass - can only be discharged outside 12 nm from shore
- Pulped Materials- can only be discharged outside 3 nm from shore
